WELCOME

Dear friends from districts
1710, 1830 and 2042,

in Pforzheim Rotarians from Italy, France and Germany already meet for the third time in order to further develop our common initiative Cooperation of Rotarians for Europe. (CORE) This time our focus is to inspire even more RC s of the three districts to participate in Trinational School partnerships or European RYLA.

Linking together on an international basis our interdistrict programs in the area of youth and vocational service provide high potential which we want to develop further.

With concrete projects focusing on European understanding and involving young people from our three countries we actively support peace in our time. Our Pforzheim conference will certainly be a networking platform for clubs who want to develop international club partnerships focusing on joint service projects.

Yours
Hans-Hinrich Kruse
Governor 1830, 2023-24
